Introduction

RSE is a positive and protective part of the Curriculum for Wales. It plays a central role in supporting learners' rights to enjoy fulfilling, healthy and safe relationships throughout their lives.

Central to the Curriculum for Wales is an aspiration for every child and young person to achieve the four [purposes](#) of the curriculum. A rights and equity based RSE curriculum helps ensure that all learners can develop an understanding of how people's faith, beliefs, human rights and cultures are related to all aspects of RSE and how these rights can contribute to the freedom, dignity, well-being and safety of all people. Therefore, within Danygraig Primary, we will discuss RSE in the context of the Rights protected by the United Nations Convention on the Rights of the Child.

RSE at Danygraig Primary will support learners to develop the knowledge, skills and values to understand how relationships and sexuality shape their lives as well as the lives of others. Learners will be equipped and empowered to seek support on issues relating to RSE and to advocate for self and others.

RSE is a mandatory requirement in the Curriculum for Wales for all learners from age 3 to 16 ("[the Act](#)"). This means that all learners must receive this education. There is no right to withdraw from RSE within the Curriculum for Wales.

This policy has been written in accordance with the Curriculum and Assessment (2021) Act; link [here](#).

The RSE policy has been written to link with other school policies and processes at Danygraig Primary. These include:

- Safeguarding and Child Protection Policies
- Positive Behaviour Policy and procedures
- Anti-bullying policy and procedures
- Acceptable Use and Online Safety Policy
- Equality Policy

Aims and objectives of RSE

The aim of RSE at Danygraig Primary is to give young people the information they need to help them develop healthy, nurturing relationships of all kinds, not just intimate relationships. It should enable them to know what a healthy relationship looks like and what makes a good friend, a good colleague and a successful marriage or other type of committed relationship. It should also cover contraception, developing intimate relationships and resisting pressure to have sex (and not applying pressure). It should teach what acceptable and unacceptable behaviour in relationships is.

In accordance with legislation, RSE at Danygraig Primary will be inclusive, pluralistic, factually correct and provide opportunities for learners to critically engage and respond to all areas of the RSE curriculum. Staff will be well trained and all resources used will be carefully selected in line with the needs of the learners.

Developmentally appropriate RSE

The Act requires that the RSE provided must be developmentally appropriate for learners. Therefore, schools and settings must take account of a range of factors such as the learners age, knowledge and maturity and any additional learning needs. RSE at Danygraig Primary will be developmentally appropriate for each learner. The age of learners should be one of the criteria by which practitioners decide upon the appropriateness of content; however, there will be other factors they will need to consider when planning provision. Factors such as the physical and mental and emotional development of learners should also be taken into account. This is essential to ensuring learners are kept safe from information for which they are not sufficiently mature to process. This, however, should not be a reason for not providing children and young people with the essential information they need as they develop physically, mentally and emotionally; developmentally appropriate RSE requires the coverage of subjects that are integral to learners' development. For example, issues which may affect some younger learners, such as puberty and menstruation, should be engaged with sensitively and before the onset of physiological changes. We will also consider how appropriate support is provided through a whole school approach such as, in the case of puberty, ensuring that learners have access to sanitary products.

RSE for Learners with Special Educational Needs or Additional Learning Needs

Danygraig Primary School will consider how best to meet the needs of all learners whose understanding of sexual health and well-being issues may not match their development.

All staff, including external agencies should be aware of the school's approach to RSE when working with learners with additional learning needs.

Principles of Delivering Effective RSE:

RSE will be taught through the Health and Wellbeing area of learning, through cross cutting themes and via discreet RSE lessons. RSE provision is a planned and integrated part of the curriculum, coordinated effectively to ensure continuity and progression in learning across the continuum.

At Danygraig Primary, RSE provision will support and build on each learner's knowledge, skills and values in appropriate ways throughout their development, in a safe and empowering environment.

Key principles for the delivery of RSE are set out below:

- RSE will be part of a whole-school approach and effectively integrated and coordinated across the curriculum.
- Effective use of specialist expertise, (School Nurse, External Agencies) time and resources to ensure learners and practitioners are safe to discuss and learn about issues which may be sensitive or challenging.
- RSE should be interdisciplinary in its approach to content, knowledge and understanding and in the way it is explored.

- All practitioners should contribute to the school's RSE priorities and professional learning is a key requirement for delivery of high quality RSE.
- Enable all practitioners to access learning that can support them to develop confidence and knowledge regarding RSE.
- RSE will be delivered in a way that is inclusive, ensuring that all learners can see themselves, their families, their communities and each other reflected across the curriculum and can learn to value difference and diversity as a source of strength.
- Danygraig Primary will ensure that we have clear lines of communication in relation to RSE and should engage with learners, parents, carers and the wider community offering them the opportunity to discuss and engage with decisions about learning and teaching of RSE.
- Our approach to RSE will be protective and preventative, considering how learners might need to be supported to:
 - understand and cope with change, conflicts and pressure;
 - have the knowledge to recognise discrimination and violence, including Violence against Women and Domestic Abuse and Sexual Violence;
 - seek help and advice where appropriate.
- The teaching of RSE will respond to and be respectful of the experiences of learners.
- The approach to RSE will involve recurring themes and topics, which reinforce and build on the learners' developing understanding and changing needs.
- Practitioners should recognise, learners' social, physical, emotional and cognitive development and needs, as well as their evolving knowledge and experience.
- Progression in RSE should be a continuous process aiming to improve overall learner well-being and safety and to realise the four purposes.

Working with parents/carers

All parents/ carers will be kept informed about the provision of RSE at Danygraig Primary and will be encouraged to see RSE as a shared responsibility between school and home.

Working with visitors and external agencies

When visitors and external agencies provide sessional learning opportunities for learners, the school will ensure that:

- The school and the external provider have agreed the aims, content and approach to be adopted.
- The local authority (education department) know of and have approved the agency as a provider of RSE support within schools.
- The school has made the provider aware of any relevant school policies.
- The school has informed and prepared pupils ahead of the visit and allowed them time to prepare questions.
- Schools who commission external agencies will apply and follow the safe recruitment and commissioning procedures of the local authority.
- The school has planned for the provider to be actively supported by a teacher throughout the visit.

Monitoring RSE

Although RSE is a whole school responsibility, RSE will be monitored, reviewed and evaluated by those with responsibility for RSE at Danygraig Primary, in line with the school's curriculum policy. This includes:

- (a) The representative from the Governing body with responsibility for RSE
- (b) The Headteacher and Senior Leadership Team
- (c) The RSE lead
- (d) Learners

This RSE policy will be reviewed every year and this process will include all of the above, alongside other members of our school community (parents/ carers, the Governing body and learners) to ensure that our RSE provision and curriculum is effective in meeting statutory requirements.

Glossary of common terms RSE (for school use ONLY)

This resource is for all staff in school to refer to, in order to further understand terminology and definitions. Not all these terms will be used in the primary school setting but a sound understanding of the terms is useful to build confidence in teaching staff. This is an organic document and will change over time as language and terminology changes.

The glossary is the result of collaboration with a number of colleagues across Swansea. It is not designed as a dictionary nor as a definitive list, but added as a professional learning resource for schools.
